

// HOW TO MAKE //

One More Trip Gardening KIT

01 How to plant

Place a mat on the bottom of the flower pot to fit the drain hole.

Pour all the soil (decomposed granite soil) in bag 1.

Cover half of the soil(culture soil) in bag 2 and sprinkle the seeds.

※ Seeds are in a black envelope

Sprinkle the remaining soil No.2 in moderation and cover it well.

Decorate freely with No.3 stones.

※ Empty the space where the seeds can germinate.

Decorate the flower pot with figures and hand blocks.

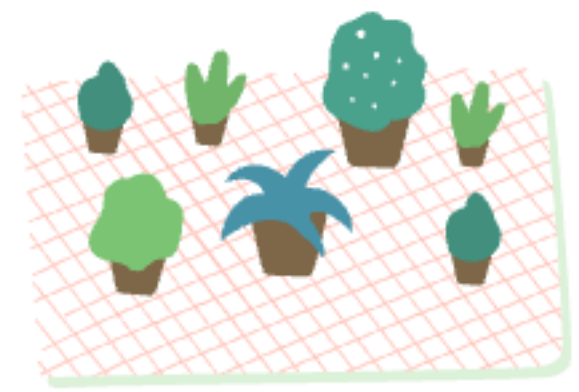

02 How to give water

After planting seeds, pour water to the point until soil gets wet.

Take care not to dry the soil until germinated.

Please take care not to be too humid after germination.

※ Poppy and basil seeds are randomly included, and basil seeds are marked separately on the outer envelope.

※ The kit can be watered through the bottom watering method, and it is recommended to cover the decorative stone after all plants germinate.
